Dear Sirs

Please send me information on prices of your information on the "Political Assassinations" - We feel certain that a conspiracy has existed and does in fact still exist! What can the individual citizen do about the rotten mess in our government? We do not consider ourselves to be "Leftist Hysterical Radicals" as all dissenters are being labeled now — We are the hard-working taxpayers whose money is being used illegally and dishonestly by the present government. Don't advise writing letters to Congressional representatives - statements by Senator Percy, Sen. Hugh Scott last evening on T.V. acknowledging the flood of letters in opposition to V.N. refugee influx & labeling the writers as "hysterical chronic dissenters" are an example of Congressional respect for the opinion of the taxpayer.

We want to order Whitewash IV

Enclosed find check for $6.25

"We" are a family of 10 adults who are all very much disenchanted with our government "Big Brother Big Daddy" Concept ("We'll spend your money and do with it what we feel is best for you!") We are all working & paying taxes. Mom & Dad both employed – 4 married daughters with heads of each family employed and yet we cannot make our opinions heard and acknowledged by the (not our) government. Our government - (a democratic one) would be influenced by the opinions of the Constituents who elected them.

A totally frustrating situation!

Sincerely,

Mrs Lillian A. Finney R.N.
